IN REPLY REFER TO

6280/7
LFL/M-2

27 JAN 1989

From: Commandant of the Marine Corps

Subj: TECHNICAL REVIEW COMMITTEES UNDER THE INSTALLATION
RESTORATION PROGRAM

Ref: (a) CMC ltr 6280/7 LFL/U-14 of 15 Jul 1988

1. The reference forwarded requirements and procedures for implementing the Marine Corps Installation Restoration (IR) program. An important aspect of the IR program is the maintenance of open dialogue between the Marine Corps installation, state and local authorities, and representatives of the local community. This is accomplished via establishment of a Technical Review Committee (TRC). The TRC should be a joint effort between the installation; the EFD; appropriate Federal, state and local governmental agencies; and local non-governmental representatives.

2. It is a goal of the Marine Corps to have the TRC facilitate the regulatory involvement and public participation requirements of the Comprehensive Environmental Response, Compensation, and Liability Act/Superfund Amendments and Reauthorization Act (CERCLA/SARA). Therefore, your participation in establishing this committee is vital in assuring the Marine Corps IR program is implemented in an expeditious and efficient manner.

3. You are currently proceeding with a Remedial Investigation/Feasibility Study and therefore require a TRC. If not already established, we request a TRC be set up no later than 5 April 1989, and that a listing of its membership be provided to this Headquarters (LFL).

4. Point of contact concerning this matter is Mr. Robert Warren, LFL, AUTOVON 697-1890.

NEIL J. BROSS
